ATHENS, GA., Nov. 22, 1859.

Dear Sir: Rhodes' Super-Phosphate has been applied by me this year, on a small scale, to both Corn and Cotton. The result exceedep my expectation, although the experiments, for many reasons, were not, and could not be conducted with due caution; yet I am entirely satisfied, that the growth of weed, in both instances, the fruit in corn, and the number of bolls of cotton, that the growth of weed, in both instances, the fruit in corn, and the number of bolls of cotton, were fully double the yield in the portions unmanured, and this when only a table-spoonful of the Super Phosphute was applied as a top-dressing to each hill of corn, and a tea-spoonful to each stalk of cotton—and the last as late in the senson as the 18th of July. Some of the weel grew to nine feet high, with six feet branches, covered with bolls, while the unmanured was not half so good. It is my intention next year, to test it more fully.

Very Respectfully,

Your most ob't serv't,

An Infallible Cure for Gonorhea \*

And all Dixenses of the Urinury Organs.

This Remedy cures when all other preparations fail. It is entirely unlike every other compound, containing no mineral poison or mansous Drug, as it is prepared solely from Roots, Barks and Leaves, and has been handed down from one generation to another by the Cherokee Indians. It is offered to the public on its own intrinsic merits. It performs its duty quickly and thoroughly. The unfortunate of either sex will be repaid by using this Remedyinstend of placing themselves at the mercy of some Quack or Professor. This Remedy strikes at the very Root of the disease; its tendency is not simply to suspend the poison, but to remove the cause on which it depends.—Full directions in pamphle form accompany each bottle.—The speedy and permanent relief afforded by this Remedy, in all cases of Gonorhea, Gleet, Gravel. Stricture, Fluor Albors, (Whites in Females,) and all Diseases of the Urinary Organs, has astonished the most scientific men of the age. This remedy not only eradicates all poison from the system but invigorates the nost delicate constitution.

This require any deviation from the usual diet.

AYER'S SARSAPARILLA,

A CER'S SARSAPARILLA, A compound remedy in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Pure Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidate for the diseases Sarsaparilla is reputed to care. It is believed that such as remedy is wanted by Places who suffer from Stranous complaints, and that one which will accomplish their cure mast prove of immense service to this large class of our affected fellow-citizens. How completely this compound will do it has been proven by experiment one many of the worst cases to be found of the following complaints.

This compound will be found a great promoter of health, when taken in the spring to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are

at that season of the year. By the timely ex-pulsion of them many rankling disorders are nipped in the bad. Multitudes can, by the aid of this remedy, space themselves from the endurance of foul cruptions and electrons screaself of corruptions, if not assisted to do this through the natural channels of the body by an alternative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptionar or sores; cleanse it when you find it is ofistructed and singgish in the veins; cleanse it whenever it is foul, and your feelings will telf you when. Even where no particular disorder is felt, people enjoy better health, and liver longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is self of corruptions, if not assisted to do this

putation, of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for

During late years the public have been misled by large bottles pretending to give a quart
of Extrace of Stranparilla for one dollar. Most
of these have been frauds upon the rick, for
they not only contain little, if any, Sarsaparilla
but often no curative properties whatever.
Hence hitter and painful disappointment has
followed the use of the various extracts of
Sarsaparilla which flood the market, until the
name itself is justly despised, and has become
synonymous with imposition and cheat. Still
we call this compound Sarsaparilla, and intend to supply such a remedy as shall restrict
the name from the luad of ablique which rests
upon it. And we think we have and dubelieving it has virtues which are irrestable
by the ordinary run of the diseases it is intentended to cure. In order to seeme their complete eradication from the system the remedy
should be judiciously taken according to direcions on the bottle.
